He sells a line of available Typefaces in his site : Kevin chose his size, to allow minimum sizing on screens of all sizes. He made this small font to compete with the very expensive or difficult to use fonts such as Helvetica or Computer Modern. He also used a monospaced font for maximum legibility on computer screens. I really like the Mac compatibility, it's nice to be able to have the same font on my laptop, my desktop, my iPad and my iPhone and keep the text size consistent. Kevin's

made this Apple Sized (Font) font compatible with both Unicode and 7-bit languages. This means it's correct for use in EPUB as well as other ePub files, it can also be used in Microsoft Word documents and Mac OS X. You are very welcome to download this font and use it for any kind of text you like. If you find it too small for your type size, you can up the size in the original size by loading this font in a text editor and swapping the extensions out to the.otf or.ttf files. Also, if you find this font a bit too small, you can make it bigger, for example, by loading the font into a text editor and swapping the extensions out to the.ttf files. . Font Collection This collection of typefaces is unique as all fonts here have a
